Job description:

Address – 5 Resolution Drive, Unit 1, Brampton, Ontario, L6W 0A5

Job summary:

A Financial Analyst's primary role is to analyze the past and present financial data of the organization and estimate future revenues and expenditures.

Job duties:

- Consolidating and analysing financial data, taking into account company's goals and financial standing.
- Providing creative alternatives and recommendations to reduce costs and improve financial performance.
- Providing accurate and data-based information on company's profitability, solvency, stability, and liquidity.
- Researching and analysing financial information to help company make well informed decisions.
- Analyzing financial statements for discrepancies and other issues, bringing them to the management's attention.
- Preparing asset, liability, and capital account entries by compiling and analyzing account information.
- Collaborating with internal teams to ensure compliance with procedures.
- Collaborating with senior management to prepare financial reporting, business case and financial models for ad-hoc projects.
- Performing all aspects of financial planning and analysis with the key stakeholders and the team.

Qualifications:

- Bachelor's degree in accounting, Finance, Economic, Business Analytics or equivalent.
- Possession of CPA is an asset.
- Minimum of 3 to 5 years of financial planning and analysis experience as a Financial Analyst.
- Proven knowledge of financial forecasting and diagnosis, corporate finance, and information analysis.
- Great interpersonal and communication skills, both oral and written.
- Strong analytical and problem-solving skills.
- familiarity with cargo regulations and policies in different countries, such as: Canada, USA, Germany and Netherlands is an asset.

Work hours: 35 hours per week.

Salary: \$77,100 to \$77,700 yearly

Benefits: Company group health package
